

ENERGIZE CT UPSTREAM REBATE

Energize CT is implementing a \$250 per ton Upstream rebate on qualifying heat pumps starting October 1st. You will now get \$250 per ton off products on the QPL when you make your purchase. This is **in addition** to the \$750 per ton mail-in rebate that is already in place.

We will need the homeowners name, address, phone number and zip code at time of purchase. **We cannot offer the rebate without the homeowner info.** In addition, the ECM circulator rebate has been increased to \$75 per circulator pump, with a max of 5 per household.

Please reach out to your account manager with any questions, thank you.
